EXPERIENCE

Full Stack Developer

Donext

📅 Jan 2024 - Present   📍 Colombo, Srilanka

- I am actively engaged in enhancing web projects using React, Material-UI (MUI), Tailwind CSS, and Next.js. Focused on bug fixing and implementing new features, my role is pivotal in ensuring the continued improvement and functionality of the company's digital offerings. This dynamic experience showcases my proficiency in React ecosystem technologies and my dedication to refining and expanding existing projects.

Freelancer

📅 Jan 2023 - Present   📍 Jaffna, Srilanka

- Stock Management System - Sri Muthalvan Stores
- I successfully developed a Stock Management System. combining React for the frontend, Node.js for the backend, and MySQL for the database. The system ensures real-time stock updates, This project stands as a testament to my commitment to delivering tailored solutions that optimize inventory control and streamline business operations.
